Well Being & Anti-Fatigue Mats Health & safety in the workplace

Kleen-Komfort Standard

The 100 % rubber anti-fatigue mat for industrial areas

Kleen-Komfort Standard is a durable rubber mat that provides excellent traction and fatigue relief for your muscles and joints at the same time. The cushioned inner construction promotes excellent anti-fatigue properties and its surface texture and low profile edges convey a better grip and reduced risk of slip or trip accident in the workplace.

Kable-Mat

Reduce accidents by containing loose cables and highlighting potential tripping hazard

Loose cables could be a safety hazard, especially in offices and production places. The Kable-Mat was developed as a means to prevent such a hazard. It is easily put over loose cables as the specially developed recess on the bottom of the mat keeps all the wires and cables in place.

Kleen-Sticky Mat

Maximise the prevention of contamination with this anti-bacterial barrier matting

Peel-off sticky polyethylene layers produced for disposal of impurity or contamination from shoes and trolley wheels in zones of high hygienic demands. Used in entry rooms to surgeries, filters, ICU's or laboratories, as well as in biological and nuclear industry, in semiconductor factories, or other workplaces where high hygiene is required.

High Visibility Mat

A bright, eye-catching way to make sure your important safety message gets noticed

A very durable logo mat offering fully customisable messages or graphics that clearly stand out in a vibrant and highly visible manner. With a choice of standard or bespoke messages printed on this eye-catching safety mat, you are sure to bring attention to any situation that requires your important message to be noticed.

make more of your floor with our intelligent mat range Our 'mats with brains' can transform your workplace Your floor is your biggest marketing opportunity

The 3 Mat System Design and technology for practical applications

1

Outside Mats Remove coarse grit & heavy soil Reduce dirt and slash cleaning costs

Kleen-Scrape

The multi-purpose rubber mat that is grease, oil and solvent resistant

In addition to outdoor uses, the Kleen-Scrape performs outstandingly well in wet areas, changing rooms, kitchens, in front of vending machines or in production areas. With its variety of features such as grease, oil and solvent resistance, heat and cold resistance and an extreme robustness, you won't want to be without the Kleen-Scrape. Whether as dirt-catcher, a special mat for wet areas or a workplace mat for fatigue-free standing, you'll always be well-served by the Kleen-Scrape.

Water-Horse

The mat with the impeccable water retention capacity

The Water-Horse containment border can hold up to 4.5 litres of water per square metre and the embossed waffle design cleans dirt from shoe soles and guarantees excellent skid resistance. The Water-Horse surface is 100 % Polypropylene and therefore fade proof and rot proof. The extra weight of the mat also means it will remain stable even in windy outdoor conditions.

Concourse

All weather 100 % rubber entrance matting tile system

Specially developed to be used in outdoor matwells which are open to the elements. Incorporating two types of rubber profiles, one being flexible the other being stable, this allows for the removal of dirt, grit and some moisture. The unique design ensures the contaminants remain in the base of the module to be removed later during the cleaning regime.

Logo Outdoor

The custom printed grass effect mat for outdoor use

Practically everyone is familiar with the scratchy-fibre type of outdoor grass mats. Usually the colour selection is mostly limited to green, this drabness of colour is now a thing of the past! Kleen-Tex presents the unique grass mat for outdoor use - the Logo Outdoor! This is the first outdoor mat that can be printed with colours and logos according to your personal requirements.

2

Inside Mats Remove grit & moisture Protect your staff and visitors

Matrix Tile

A rubber rib & carpet modular entrance matting system

Interchangeable rubber rib & carpet modular tiles to maximise wear, simply replaceable and at minimal cost thus extending the life cycle of this entrance matting system. Built to withstand the most demanding of commercial entranceway environments, whilst still maintaining its full cleaning effectiveness. The Matrix Tile entrance matting module with its studded channelling has a high capacity for moisture and debris collections.

Super-Mat

Dual performance scrape and wipe - heavy duty mat to keep your buildings even cleaner

This dirt-catching mat has a unique double feature; heavy-duty mono-filament fibres remove coarse dirt from passing soles whilst the high-twist, fine, heat-set fibres, absorb and keep fine dust, dirt and moisture in the mat. The ultimate choice for busy areas like entrances and receptions or anywhere dirt ingress is high.

Iron-Horse XL

High dirt absorption mat made for heavy duty areas

Stop dirt and moisture being tracked into your building with even more power! Iron-Horse XL mats are perfectly suited for high foot traffic areas such as business entrances and receptions. With the luxury of extra plush fibres, the Iron-Horse XL is super efficient at removing contamination as it is tracked into your building.

Wash-Horse

Ultra absorbent 100 % cotton washable floor mats

The best solution in problem areas, in which big amounts of damp dirt come into the building. No matter, whether in industry - or trade businesses or in public buildings: the Wash-Horse is an ideal barrier against wetness and damp soil which provides more safety. The mat insures that though oil and grease found in industrial and production businesses, installation halls and workshops are kept away from other rooms.

3

Tertiary Mats Remove fine dirt & moisture Give your floors the WOW factor

Iron-Horse

The professional way to stop dirt and moisture being tracked into your building

Durability and a high capacity for dirt capture make this mat the perfect choice for highly frequented areas such as entrances, corridors, lift doors and reception desks. A wide colour choice will ensure a great match with your interiors.

Monotone

Bright and vibrant uni-colour mats with excellent functionality

Besides its impeccable capacity for dirt capture this mat also serves as an additional decorative element for your interior, just choose your favourite from our palette of 12 brilliant colours. Specifically suited for entrances, reception desks and corridors.

Jet-Print

Custom logo mats and printed messages for a great first impression

A high dirt capture capacity mat with customisable design. Choose your favourite colours from our standard range of 44 to create your design. A one of a kind upgrade for entrances, reception desks, as well as a clever use of floor areas for messages and advertising.

Jet-Print Vision Plus

Its additional pile weight and shiny surface offers the best print results

The even thicker straight-set pile of the Vision Plus allows almost photorealistic prints. Make a striking first impression and take advantage of an underappreciated advertising space by positioning this mat in entrances, reception desks and waiting areas.
