

As part of our Quality Management system all mats produced in Poland will have a barcode added to back of the mat. This barcode can only be scanned by Kleen-Tex and provides us with a "birth certificate" for each mat where we can see the day, month, year of manufacture as well as traceability of employees, raw material, machine and shift.

To assist you in identifying the age of your mats the manufacturing date (month/year) is shown as part of the number and can be read. Below is an explanation of how to do this.

02004150222884

04 = APRIL 15 = 2015

In the unlikely event of any claim then please use the barcode as the reference – you can take photograph or write the number in the email.
