DUNE

DUNE - die neue nachhaltige Fußmatte für Drinnen und Draußen

DUNE ist mit ihrer groben 3-dimensionalen Struktur so konzipiert, dass das Wasser durch tieferliegende Rinnen aufgefangen wird und darin abfließt. Somit ist sie perfekt für den Einsatz im Außenbereich geeignet. Optisch ansprechend kann sie natürlich auch im Innenbereich eingesetzt werden.

Neben der Funktionalität ist der nachhaltige Einsatz von recycelten Materialien besonders erwähnenswert. Das Obermaterial besteht zur Hälfte aus 100 % recyceltem Polyester, das zum Beispiel aus PET Flaschen oder aus anderen Kunststoffteilen gewonnen wird. Der rutschfeste Rücken ist zu einem Teil aus recyceltem Nitrilgummi aus eigener Produktion.

DUNE - the new sustainable doormat for indoors and outdoors

With its coarse three dimensional structure, DUNE is designed so that water is collected and drained through its deep channels; making it perfect for outdoor use. Visually appealing, it can also be used indoors.

In addition to its functionality, DUNE uses recycled materials with half of the upper material being made from 100 % recycled polyester, which is obtained from PET bottles or other plastic parts. The non-slip backing also contains recycled nitrile rubber from our own production.

DUNE - le nouveau paillason écoresponsable pour intérieur et extérieur

Avec sa structure tridimensionnelle épaisse, le tapis DUNE a été conçu afin que l'eau soit collectée et évacuée par de profondes rainures. Il est donc parfaitement adapté à une utilisation en extérieur. Visuellement attrayant, il peut bien sûr aussi être utilisé à l'intérieur.

En plus de sa fonctionnalité, le modèle DUNE est composé de matériaux recyclés. La moitié du matériau supérieur est constituée de polyester recyclé à 100 %, obtenu à partir de bouteilles en PET ou d'autres pièces en plastique. Le dos antidérapant contient également du caoutchouc nitrile recyclé provenant de notre propre production.

DUNE - il nuovo zerbino sostenibile per interni ed esterni

DUNE, con la sua ruvida struttura tridimensionale, è progettato in modo tale che l'acqua venga raccolta da scanalature più profonde e scorra via. Pertanto è perfettamente adatto per l'uso all'aperto. Visivamente gradevole, può naturalmente essere utilizzato anche all'interno.

Oltre alla sua funzionalità, è particolarmente degno di nota l'uso sostenibile di materiali riciclati. La metà della fibra è costituita al 100 % di poliestere riciclato, ottenuto ad esempio da bottiglie in PET o altre parti in plastica. Il dorso antiscivolo è in parte realizzato da gomma nitrilica riciclata di nostra produzione.

DUNE - la nueva alfombra sostenible para interiores y exteriores.

Con su gruesa estructura tridimensional, DUNE está diseñada para recoger y drenar el agua a través de sus canales profundos; haciéndola perfecta para uso en exteriores. Visualmente atractiva, también se puede usar en interiores.

Además de su funcionalidad, DUNE utiliza materiales reciclados en la mitad del material superior hecho 100 % de poliéster reciclado, que se obtiene de botellas de PET u otras piezas de plástico. El dorso antideslizante también contiene caucho de nitrilo reciclado de nuestra propia producción.

Dirt Trapper Mats – die Flauschigen mit großer Saugkraft

Dirt Trapper Designs haben eine 100 % natürliche Oberfläche aus 85 % recycelter Baumwolle und 15 % Viskose. Die Rohstoffgewinnung ist durch das Recycling ressourcensparend, da weniger Wasser als beim Anbau von Baumwolle verbraucht wird und vorhandene Alttextilien einen neuen Verwendungszweck erleben (2nd Life). Die Fasern saugen Flüssigkeit aktiv auf und machen Dirt Trapper zu leistungsstarken Schmutz- und Feuchtigkeitsbarrieren. Dadurch sind sie perfekt für alle Bereiche des Hauses geeignet, in denen viel Nässe und Schmutz auftritt, so z.B. im Eingangsbereich, an der Terrassen-, Balkon- und Hintertür. Britische Hundebesitzer wissen die Stärken der Baumwollmatten schon lange zu schätzen! Saugstark und dekorativ sind sie ebenso für den Einsatz im Bad zu empfehlen. Der Rücken aus weichem Latex gibt auf harten und trockenen Böden sicheren Halt.

Dirt Trapper Mats – tufted surface with great absorbency

Dirt Trapper designs have a 100 % natural surface made of 85 % recycled cotton and 15 % viscose. Recycling saves resources, as less water is used than in the cultivation of cotton and existing old textiles experience a new use (2nd Life). The fibres actively absorb liquid and make Dirt Trapper a powerful barrier against dirt and moisture. This makes them perfect for all areas of the house where a lot of moisture and dirt is present, such as the entrance area, patio, balcony and back door. British dog owners have long appreciated the strengths of cotton mats! Absorbent and decorative, they are also recommended for use in the bathroom. The back made of soft latex gives a secure hold on hard and dry floors.

Dirt Trapper Mats – les tapis moelleux à grand pouvoir absorbant

Les motifs Dirt Trapper ont une surface 100 % naturelle, composée de 85 % de coton recyclé et de 15 % de viscose. Le recyclage permet d'économiser des ressources, car il utilise moins d'eau que la culture du coton et les anciens textiles existants connaissent une nouvelle utilisation (2nd Life). Les fibres absorbent activement le liquide et font de Dirt Trapper une puissante barrière contre la saleté et l'humidité. Ils sont donc parfaits pour toutes les zones de la maison où il y a beaucoup d'humidité et de saleté, comme l'entrée, le patio, le balcon et la porte arrière. Les propriétaires de chiens britanniques apprécient depuis longtemps la résistance des tapis en coton ! Absorbants et décoratifs, ils sont également recommandés pour la salle de bains. Le dos en latex souple assure une bonne tenue sur les sols durs et secs.

Dirt Trapper Mats – quelli soffici con capacità di assorbimento

I disegni Dirt Trapper hanno una superficie naturale al 100 % realizzata con l'85 % di cotone riciclato e il 15 % di viscosa. Il riciclaggio consente di risparmiare risorse, in quanto viene utilizzata meno acqua rispetto alla coltivazione del cotone e i vecchi tessuti esistenti trovano un nuovo impiego (2nd Life). Le fibre assorbono attivamente il liquido e rendono Dirt Trapper una potente barriera contro lo sporco e l'umidità. Questo li rende perfetti per tutte le aree della casa dove è presente molta umidità e sporcizia, come la zona d'ingresso, il patio, il balcone e la porta sul retro. I proprietari di cani britannici hanno da tempo apprezzato i punti di forza dei tappetini di cotone! Assorbenti e decorativi, sono anche consigliati per l'uso in bagno. Il dorso in lattice morbido offre una presa sicura su pavimenti duri e asciutti.

Dirt Trapper Mats – Superficie tejida con gran capacidad de absorción

Los diseños de Dirt Trapper tienen una superficie 100 % natural hecha de 85 % de algodón reciclado y 15 % de viscosa. El reciclaje ahorra recursos, ya que se utiliza menos agua en el cultivo del algodón y los textiles viejos existentes experimentan un nuevo uso (2ª. vida). Las fibras absorben activamente el líquido y hacen de la Dirt Trapper una poderosa barrera contra la suciedad y la humedad. Esto las hace perfectas para todas las áreas de la casa donde hay mucha humedad y suciedad, como la entrada, el patio, el balcón y la puerta trasera. ¡Los dueños de perros británicos han apreciado desde hace mucho tiempo los puntos fuertes de las alfombras de algodón! Absorbentes y decorativas, también se recomiendan para su uso en el baño. El dorso hecho de látex blando le da una sujeción segura en suelos duros y secos.

Revive

REVIVE – die neue nachhaltige Fußmatte mit hoher Lichtechtheit

Revive – heißt „wiederbelebt“ und erzählt, wie aus nutzlosem Produktionsabfall ein vollwertiges neues Produkt entsteht.

Die Verwendung von **Renycle™ 50** Garn spart bei der Garnherstellung Energie, Wasser und Emissionen. Hochwertiger Nylonabfall wird ressourcenschonend zu neuem Garn mit ausgezeichneten Eigenschaften verarbeitet. Zusätzlich entfällt der Druckprozess, denn das Muster der Fußmatte entsteht durch das 2-farbige Einziehen beim Tuften. Revive hat durch die Garnfärbung eine sehr hohe Lichtechtheit und alle bekannten Vorzüge der wash+dry Familie.

REVIVE – the new sustainable doormat with high light fastness

Revive – tells the story of how useless production waste is turned into a fully-fledged new product.

Using **Renycle™ 50** yarn saves energy, water and emissions during yarn production. High-quality nylon waste is processed into new yarn with excellent properties in a resource-saving way. There is also no need for additional printing processes, as the pattern of the doormat is created by a 2-colour tufting process. Thanks to the yarn dyeing, Revive has a very high light fastness and all the other well-known advantages of the wash+dry family.

REVIVE – le nouveau paillason durable et hautement résistant à la lumière

Revive signifie „renaître“ et raconte comment des déchets de production inutiles sont transformés en un nouveau produit à part entière.

L'utilisation du fil **Renycle™ 50** permet d'économiser de l'énergie, de l'eau et des émissions lors de la production du fil. Les déchets de nylon de haute qualité sont transformés en un nouveau fil aux excellentes propriétés, tout en économisant les ressources. En outre, le processus d'impression n'est plus nécessaire car le motif du paillason est créé par le procédé de touffetage en deux couleurs. Grâce à la teinture des fils, Revive a une très haute résistance à la lumière, en plus de tous les avantages bien connus de la famille wash+dry.

REVIVE – il nuovo zerbino sostenibile ad alta resistenza alla luce

Revive – significa „rivivere“ e racconta come gli inutili scarti di produzione si trasformano in un prodotto nuovo a tutti gli effetti.

L'utilizzo del filato **Renycle™ 50** consente di risparmiare energia, acqua ed emissioni durante la produzione del filato. Gli scarti di nylon di alta qualità vengono trasformati in nuovi filati con eccellenti proprietà in modo da risparmiare risorse. Inoltre, il processo di stampa non è più necessario, in quanto il modello dello zerbino viene creato dal processo di tufting a 2 colori. Grazie alla tintura in filo, Revive ha una solidità alla luce molto elevata e tutti i ben noti vantaggi della famiglia wash+dry.

REVIVE – La nueva alfombra sostenible con alta resistencia a la luz

Revive – cuenta la historia de cómo los residuos de producción inútiles se convierten en un nuevo producto en toda regla.

El uso del hilo **Renycle™ 50** ahorra energía, agua y emisiones durante la producción del hilo. Los residuos de nylon de alta calidad se procesan en un nuevo hilo con excelentes propiedades y de una manera que ahorra recursos. Además, no es necesario el proceso de impresión, ya que el patrón de la alfombra se crea mediante el proceso de mechones de 2 colores. Gracias al teñido del hilo, Revive tiene una alta resistencia a la luz y todas las ventajas de la familia wash+dry.

cats on appletrees®

„cats on appletrees entwerfen liebevoll illustrierte Produkte, die kleine Geschichten rund um Friedegunde, die Katze, erzählen. Sie trifft auf eine findige Hundemeute, die reichlich Unruhe in das sonst so beschauliche Katzenleben bringt..“

„cats on appletrees design beautifully illustrated products which tell short stories about Friedegunde the cat. She comes across an ingenious pack of dogs which bring great unrest to her otherwise peaceful cat's life..“

„cats on appletrees conçoit des produits soigneusement illustrés qui racontent de petites histoires autour de Friedegunde, un chat. Une meute de chiens futés vient chambouler le quotidien paisible du minou..“

„cats on appletrees rappresenta prodotti illustrati con passione, che raccontano piccole storie che ruotano attorno a Friedegunde, la gatta. La quale incontra una scaltra banda di cani che portano scompiglio nella tranquilla vita del felino..“

„cats on appletrees proyectan productos ilustrados cariñosamente que relatan pequeñas historias en torno a Friedegunde, la gata. Ella encuentra una ingeniosa jauría de perros que provoca gran inquietud en la habitualmente apacible vida gatuna..“

Eugen Stross

„Ich brauche seit Kindertagen den Pinsel in der Hand. Ich liebe es, die Farben nebeneinander zu stellen und die Farbfläche durch Strukturen oder Ornamente aufzulösen.“

„I have always wanted to be holding a brush in my hand, ever since I was a child. I love painting the colours alongside one another and breaking up the areas of colour with structures and decoration. “

„Depuis tout petit, j'ai besoin d'avoir un pinceau dans la main. J'aime placer les couleurs les unes à côté des autres et décomposer la surface colorée par des structures et des ornements.“

„Da quando ero piccolo amo avere un pennello tra le mani. Amo combinare tra loro i colori e decorare la superficie con strutture ed ornamenti.“

„Desde la infancia necesito el pincel en la mano. Me gusta colocar los colores uno junto al otro y descomponer el campo de colores mediante estructuras u ornamentos.“

Textildesign by Domogalla

„Alles ist Design. Ich sehe die Fußmatte als grundlegendes Statement für Stil und Geschmack, das ich elegant und ansprechend gestalte – ganz im Sinne gelungenen Designs.“

„Everything is design. I regard the doormat as a fundamental statement about style and taste which I design to be elegant and appealing – just like a successful design.“

„Tout est design. Je vois le paillason comme une déclaration fondamentale de style et de goût que je façonne avec élégance et classe – pour un design réussi.“

„Tutto è design. Vedo lo zerbino come dichiarazione fondamentale di stile e gusto, che strutturo in modo elegante e allettante, proprio come un design riuscito.“

„Todo es diseño. Veo el felpudo como una declaración fundamental de estilo y gusto, que conformo de manera elegante y atractiva, totalmente en el sentido del diseño logrado.“

Auf Wunsch genau nach Maß

Jedes Zuhause ist individuell und einzigartig wie Sie selbst. Deshalb kann es schon einmal vorkommen, dass unsere Monocolor Standardgrößen nicht Ihren Wünschen entsprechen. Teilen Sie uns Ihr Wunschmaß mit und wir produzieren die ausgewählte Farbe gemäß Ihren Vorgaben bis zu einer Maximalgröße von 150 x 400 cm. Bitte beachten Sie unsere Größertoleranz von +/- 3%. Mindestbestellmenge: 1 m²

Made-to-measure, on request

Every home is individual and unique, just like you are. It may therefore be that our mono-colour standard sizes do not meet your requirements. Tell us what size you require and we will produce it in the colour you require, in line with your specifications up to a maximum size of 150 x 400 cm. Please note we have a size tolerance of +/- 3%. Minimum order quantity: 1 m²

Du sur mesure

Chaque maison est individuelle et unique, comme vous. Par conséquent, il peut arriver que nos tailles standard Monocolor ne correspondent pas à vos besoins. Faites-nous part de la taille que vous désirez et nous produirons la couleur sélectionnée en fonction de vos besoins jusqu'à une taille maximale de 150 x 400 cm. Veuillez noter notre tolérance de taille de +/- 3%. Quantité minimum: 1 m²

Su misura, a richiesta

Ogni casa è unica e personale come voi stessi. Per questo può talvolta accadere che le nostre misure standard Monocolor non rispondano alle vostre esigenze. ergonomic anti-fatigue mat

Stand-On - Die ergonomische Anti-Ermüdungsmatte

Längere stehende Tätigkeiten führen häufig zu Rückenschmerzen sowie Beschwerden in Beinen und Füßen. Verspannungen, Steifheit, Entzündungen und Krampfadern können weitere Folgen sein. Um diesen Symptomen vorzubeugen haben wir eine spezielle Anti-Ermüdungsmatte entwickelt. Das Stehen auf dem dauerelastischen Nitrilgummischaum hat eine muskelaktivitätsfördernde Wirkung und kann damit den Blutfluss und die Sauerstoffversorgung im Körper verbessern.

Stand-On - The ergonomic anti-fatigue mat

Long periods of standing can lead to back problems as well as problems with the legs and feet. Tension, stiffness, inflammation, poor circulation and even varicose veins may result. To prevent these symptoms, we have developed a special anti-fatigue mat. Standing on the spongy nitrile rubber foam has an active effect which can improve blood flow and oxygen supply in the body relieving stress and fatigue in muscles and joints.

Smokey Mount 55 x 78 cm

Stand-On - Le tapis ergonomique « anti-fatigue »

De longues périodes en position debout peuvent causer des problèmes de dos, ainsi que des problèmes aux jambes et aux pieds. Des tensions, de la rigidité, des inflammations, une mauvaise circulation sanguine ou des varices sont autant de symptômes qui peuvent en résulter. Pour empêcher ces problèmes, nous avons développé un tapis ergonomique « anti-fatigue ». Se tenir debout sur ces tapis constitués de caoutchouc nitrile éponge provoque un effet actif qui améliore l'apport en oxygène dans le sang et permet une bonne circulation soulageant ainsi le stress et la fatigue dans les muscles et les articulations.

Stand-On - Il tappeto ergonomico anti-fatica

Attività prolungate in piedi possono causare dolori alla schiena e fastidi a gambe e piedi. Tensione, rigidità, infiammazione, scarsa circolazione e vene varicose possono essere ulteriori conseguenze. Per prevenire questi sintomi abbiamo sviluppato uno speciale tappeto anti-fatica. Stare su una base di schiuma di gomma nitrilica ha l'effetto di attivare la muscolatura, e può aiutare a migliorare la circolazione sanguigna, e l'apporto di ossigeno al corpo.

Stand-On - La alfombra anti-fatiga ergonómica

El estar largos períodos de pie puede traer problemas de espalda, así como problemas con las piernas y los pies. Pueden producirse tensiones, rigidez, inflamaciones, mala circulación e incluso varices. Para prevenir estos síntomas, hemos desarrollado una alfombra anti-fatiga especial. Al estar de pie sobre la espuma de goma nitrilo se produce un efecto activo que puede mejorar el flujo sanguíneo y el suministro de oxígeno en el cuerpo aliviando el estrés y la fatiga en los músculos y las articulaciones.

Bei PVC-Böden, Linoleumböden und frisch geölten Parkettböden kann es durch eine Wechselwirkung mit gummibeschichteten Matten zu einer Farbveränderung der Oberfläche kommen.

In the case of PVC, linoleum flooring and freshly oiled parquet floors discolouration can occur due to an interaction with rubber-coated mats.

En cas de sols en PVC, linoléum ou de parquets fraîchement huilés, une modification de la couleur de la surface du sol peut se produire par une interaction avec des tapis revêtus de caoutchouc.

Nel caso di pavimenti in PVC, linoleum e pavimenti in parquet appena oliati, l'interazione con tappeti gommati può portare ad un cambiamento di colore della superficie.

En el caso de PVC, suelos de linóleo y suelos de parquet recién aceitados, puede ocurrir una decoloración debido a una interacción con las alfombras recubiertas de goma.
