Care

wash+dry Rugs can be machine washed on a gentle cycle at a maximum temperature of 60°C. They should be washed separately using a mild detergent and spun at a maximum of 800 rpm.

Before washing, please check the maximum load of your washing machine, and for larger rugs, we recommend taking them to a laundry or cleaning them with a carpet cleaning device.

Put the Rug in the dryer and select the „Easy care“ or „Mixed Fabric“ programme. As an alternative to the dryer, you can also lay the Rug out flat to dry.

Bleaching, ironing, and dry cleaning are not recommended.
